PROFESSIONAL SUMMARY

MCA graduate with a foundation in software development and experience in building academic & personal projects. Familiar with backend development, relational databases, and API testing. Passionate about learning new technologies and contributing to scalable software solutions in a collaborative environment.

TECHNICAL SKILLS

Languages & Concepts: Java, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA)
Backend Development: Spring Boot, REST APIs, JDBC
Web Technologies: HTML5, CSS3
Databases: MySQL, SQL
Testing: Manual Testing, API Testing(Postman)
Development Tools: Git, GitHub, IntelliJ IDEA, Eclipse IDE, MySQL Workbench
Soft Skills: Attention to detail, Problem-solving, Time management

EDUCATION

Master of Computer Applications (MCA) *Nov 2022 - Jun 2024*
Suryadatta Institute of Management & Mass Communication, SPPU • 71.11%

Bachelor of Commerce in Computer Applications (BCCA) *Jul 2018 - Aug 2021*
City Premier College, RTMNU Nagpur University • 85.00%

Higher Secondary Certificate (12th) *Jul 2017 - May 2018*
Santaji College, Nagpur • 64.77%

Secondary School Certificate (10th) *Jun 2015 - Jun 2016*
St. Ursula Girl's High School, Nagpur • 87.00%

TECHNICAL TRAINING

Java Full Stack Development Training - QSpiders Institute, Pune *Jan 2024 - Feb 2025*

- Trained in Core Java, OOP, JDBC, Spring Boot, REST APIs, and MySQL.
- Practiced API testing with Postman and version control with Git/GitHub.

PROJECTS

Smart QR Code based Student ID System
Java, MySQL, HTML, CSS

- Built a QR code-based student identification system integrated with a library database.
- Wrote installation and configuration guides taking a new user from setup to a running instance of the application.
- Designed the database schema to support student records, library transactions, and real-time record synchronization.

Leave Management System
Java, Spring Boot, React, MySQL, REST APIs

- Built backend services and REST APIs for employee and leave management workflows using Java, Spring Boot, and MySQL.
- Developed and integrated the leave request, approval, and status update workflow end-to-end across backend and frontend.
- Validated API endpoints using Postman to ensure reliable request handling and accurate response data.

Mnemora : Voice Diary Application
Android, Java, Spring Boot, AI integration, REST APIs

- Explored application workflows involving speech recognition and backend integration built with Java and Spring Boot.
- Integrated speech-to-text functionality with backend APIs to enable voice-to-diary entry conversion.
- Built and tested REST API endpoints supporting core diary features such as entry creation, retrieval, and AI-based processing.

CERTIFICATIONS

- Mastering Maven: Java Build Tool - Alison
- Fundamentals of Quality Assurance - Alison
